Summary

Web and Mobile Computing student-athlete with strong frontend and networking skills, focused on developing applications to improve customer experience and satisfaction. Proficient in a handful of software applications.

Education

Rochester Institute of Technology – Rochester, NY

Obtained May 2025

Bachelor of Science in Web and Mobile Computing, Minor in Management Information Systems

GPA: 3.5/4.0, Dean's List: 4x

Work Experience

Reorg – New York, NY

Jun. 2024-Aug. 2024

Software Engineer Internship

- Led the creation of an SSO solution integrated with Auth0, successfully delivering a fully functional proof of concept that met and surpassed project requirements.
- Developed detailed technical specifications and documentation for the SSO solution, ensuring clarity and scalability for ongoing development and future maintenance.
- Collaborated with three teams, framework, product design, and IT security, blending cross-functional efforts to align project objectives with organizational goals.
- Developed nine new endpoints in C# with PostgreSQL integration, enhancing system functionality and optimizing database interactions.
- Played a key role in the successful execution of a complex project within an agile environment, demonstrating strong collaboration skills by working effectively with seasoned professionals to achieve project goals.

Laboratory of Software Design and Productivity – Rochester, NY

Mar. 2023-Aug. 2023

Software Security Research Co-Op

- Drove investigation and improvement initiative on tackling vulnerabilities within 50+ Software Bill of Materials (SBOMs). Resulted in action plans on patching and securing identified vulnerabilities for each SBOM.
- Utilized Angular framework to build two risk management applications overseeing SBOM security health. Applications were presented to government sponsors, resulting in improved project results and performance.
- Created standard procedures for all prototype and production applications streamlining build process and resulting in decreased time-to-market.
- Collaborated in a scrum and agile environment, driving smooth git workflows. Advanced productivity within the development team across each sprint cycle, resulting in on-time delivery of each project milestone and objective.
- Supported a large-scale research project, through a multi-million-dollar government grant, driving key initiatives within the cybersecurity and software supply chain.

Relevant Projects

iSchool @ RIT Web App – Client Programming

Spring 2023

- Developed a C# front-end solution leveraging an API to access online services, ensuring seamless integration, efficient data retrieval, and adherence to RESTful principles. Optimized system responsiveness across various devices while following HTML5, CSS3, and JavaScript standards.
- Added several jQuery plugins, including interactive modals for detailed information and carousels for highlighted content, to enhance the application's visual appeal and user interaction.

Track Meet Results App – Mobile Application Development I

Fall 2023

- Pulled mock data from a results website (TFRRS) and structured the contents into JSON arrays and lists, ensuring compatibility with the application's data model. Implemented advanced functionalities such as search capabilities and a variety of filtering options to enhance user experience.
- Used SwiftUI to create interactive elements and intuitive navigation, streamlining access to meet results for 100+ athletes. Simplified navigation to find a specific event tailored to the user to improve experience.

Hard Skills

Programming Languages: HTML5, CSS, JavaScript, Java, Python, C#, C++, Angular, NodeJS, PHP, MySQL, SwiftUI, Maven, Wildfly, Docker

Development Software: Visual Studio Code, Microsoft Visual Studio, jGRASP, XCode, Android Studio, IntelliJ IDEA

Software: Microsoft Office, Adobe Creative Cloud, FileZilla, Powershell, Final Cut Pro

Campus & Community Activities

DIII Varsity Track and Field – Sprinter, Hurdler, Captain

Sep. 2021-May 2025

- Competed in a variety of events including sprinting, hurdling, and relays. Team captain of 100 athletes driving communication and leadership over practice, weightlifting sessions, and other team correspondence.
- Honors: NCAA All-American, USTFCCA Academic All-American, Niagara All-Region, Liberty League All-Academic, Liberty League First Team

RIT Intramurals – Referee, Supervisor, Manager

Oct. 2021-May 2025

- Oversee weekly matches within the RIT Intramurals program for over 100+ students. Hold students accountable to the principles and procedures, while promoting a safe culture of sportsmanship amongst players.

For The Record - President

Aug. 2022-May 2024

- Oversee all outward facing operations for a 75-person music club. Action items include long-term planning of club's \$3K budget, meeting structures, and leadership amongst E-Board.
